Women Who Code

Women Who Code (WWCode) is a global 501(c)(3) non-profit dedicated to **INSPIRING** women to **EXCEL** in technology careers.

Organization Overview
501(c)(3): #46-4218859

What We Do

As an organization, we **EMPOWER** women with the skills needed to **ADVANCE** their technical careers, provide them with a community of women who believe in the **LONGEVITY** of their careers, and use the power of our **NETWORK** to connect our members to life changing opportunities.

How We Do It

CONNECTING our global community of technical women to each other

EMPOWERING our members with leadership opportunities

FACILITATING free technical workshops

FOSTERING a community where networking and mentorship are valued

KEEPING women in their technical careers

DEVELOPING our leaders into **TRAILBLAZERS**

TIRELESSLY ADVOCATING for women in **TECH**

Our Chapters

A Worldwide Organization

18 countries

50 cities

30,000+ members

2,000+ free workshops organized

A photograph of a large, illuminated sign for "Portland Oregon Old Town". The main text "Portland" and "Oregon" is written in a stylized, glowing orange font with a green outline, set against a dark background. A yellow outline follows the shape of the letters. Below this, the words "Old Town" are displayed in a smaller, red, outlined font. The sign is mounted on a tall metal lattice tower. In the background, there are power lines and a clear sky.

What We Do in Portland

Study Nights (JavaScript and PHP)

Networking Nights

Workshops (Intro to Tech series, Creating Your Personal Website, iPhone vs. Android, and more)

JavaScript Study Night

What? Come hack on JavaScript projects!

When? Every Wednesday

6-9 PM

Where? PDX Code Guild

OOP in PHP (Study Night)

What? Alena leads the group through an OOP lesson, taught in PHP

When? Monthly meetup

Where? Portland Code School

Networking Night

What? A meetup hosted by a different tech company in Portland every month.

The goal is to introduce our members to new companies, careers in tech, and to showcase women in tech working at those companies.

Why? We want to build a **COMMUNITY** of technical women in Portland.

2015 Schedule
